

# **Job Description**

## **HVAC Technician Description**

We have an immediate opening for an experienced HVAC Technician. You will travel to the customer's location to inspect their current equipment, identify problems with their units, and perform necessary repairs or routine maintenance. When required, you will install new systems and ensure they are running smoothly. We work with both commercial and residential customers, so you must know how to work with small and large HVAC equipment. Our ideal candidate has at least two years of professional HVAC repair experience and can work independently and with others.

## **HVAC Technician Duties and Responsibilities**

- Travel to homes and businesses as scheduled by the Dispatcher
- Determine customer concerns with their current HVAC system
- Inspect current HVAC systems for effectiveness and safety
- Perform necessary repairs and routine maintenance
- Install new heating, cooling, and ventilation systems
- Maintain accurate inventory of all equipment and HVAC resources
- Communicating with clients and customers
- Train junior team members
- Ordering and maintaining equipment
- Complies with company and industry safety standards

## **HVAC Technician Requirements and Qualifications**

- High School diploma or equivalent
- 2 years plus HVAC experience
- Current state HVAC technician license
- Certification through the Environmental Protection Agency to handle refrigerants required
- Proficient with manual and power tools
- Valid driver's license and dependable transportation
- Reliable and self-motivated
- Will be required to work in extreme heat or cold
- Must be able to lift 50lbs at a time
- Must be able to work in a team setting or independently
